

DYLAN NGUYEN

Irvine, CA • hello@dylanhnnguyen.com • +1 (949) 842-2889 • dylanhnnguyen.com

OBJECTIVE

Driven full stack developer with experience developing AI and SaaS solutions currently seeking a position that provides opportunities for me to apply and leverage my skill set in software engineering.

EXPERIENCE

TRINET INTERNET SOLUTIONS

Irvine, CA

Full Stack Web Developer Intern

6/2023 - 8/2023

- Assisted redevelopment of internal tracking system in use by 125 employees, resulting reduction of 20% in save/load time and 15% operation time
- Developed backend data structures and schemas for less expensive deploy costs
- Improved website user traffic by 24% and SEO by 15% by optimizing website performance with server-side caching mechanisms (Memcached, Redis)

FARMERS & MERCHANTS BANK

Long Beach, CA

Information Security Analyst Intern

3/2022 - 3/2023

- Developed technical network diagrams of security infrastructure
- Managed internal databases and performed vulnerability scans with penetration testing
- Operated Sumo Logic, Netwrix, Hitachi, ZenDesk, internal IAM/SEIM/Active Directory systems

IRVINE LAKEVIEW CENTER

Irvine, CA

Information Security Analyst Intern

10/2017 - 6/2019

- Analyzed and resolved technology problems for members
- Developed individualized assessments and tailored technical education plans

PROJECTS

CLARITY GPT | AI SAAS with 5 generative tools

6/2023

- Driven by GPT-4, chaining together LLM "thoughts", to autonomously answer users' queries
- Features generative AI code, chat, music, authenticated user login with Stripe payment token integration

002PICKLE | Full stack ecommerce shop + CMS

3/2023

- Customizable backend server using a CMS for inventory control and API server access
- Features user authenticated login, dynamic cart, live search, Stripe payment integration, full admin CMS

HIGHLANDERNOW | Academic platform serving hundreds of students

12/2022

- Serves 400+ users per month, 200+ UCR user registrations
- Features authenticated login, interactive map, live parking status, review database
